

THE BLACK AUTOMATON IN TAG

[IT] *don't want to be called your...* { **NIGGER** }

1. it's best not to err and ER the A
if one must air the n_ _ _ _ _.
the ER is a looming heir
of that gloomy era where
n_ _ _ _ _s were in the air
in the best knots. IT knows that
to *catch a n_ _ _ _ _ by the toe*
is a way to pick the very best one.
when the n_ _ _ _ _ is to end up knotted
in the air, IT knows by your inheritance
IT is going to be IT. the A may still be
it, but it's ITS IT. see De Despair...

2. since that's ITS name,
wear IT out.

*en*eye**double guh' *errrrrr*
